

Indra Chhedal

IT Student

Balaju , Kathmandu • 9765824038 • chhedalindra055@gmail.com

Hi, I'm an IT student passionate about technology and solving problems through coding. I enjoy exploring areas like software development, networking, and cybersecurity. Always eager to learn and collaborate on innovative projects!

EDUCATION

Bachelor in Computer Application(BCA)

Kathmandu

Kathmandu Bernhardt College

Jan, 2022 - Present

I'm pursuing a Bachelor's in Computer Application (BCA) at Kathmandu Bernhardt College, where learning is practical and tech-focused.

+2 Science

Dhangadhi

Kailali Multiple Campus(KMC)

Nov, 2019 - Sep, 2021

I completed my +2 in Science at Kailali Multiple Campus, Dhangadhi, focusing on Physics, Chemistry, and Computer science.

PROJECTS

Flutter Project :News App

The Flutter-based mobile application for Radical Academy of Science and Technology is a fully functional news app designed to deliver real-time updates and educational content. The app features an intuitive and responsive UI, ensuring a smooth user experience across various screen sizes. In addition to displaying categorized news and announcements, the app includes an embedded note generation feature, allowing users to take and save notes directly within the app. This project showcases a seamless blend of content delivery and interactivity, built with Flutter for high performance and cross-platform compatibility.

TRAINING/CERTIFICATIONS

Github Training

2023

KBC IT Club

I received training on GitHub, learning to manage version control, collaborate on projects, and track code changes efficiently. This helped me improve my coding workflow and contribute to team projects seamlessly.

QA Training

2025

Udemy

I completed a QA training, where I learned to Testing software using tools like JMeter, Cypress, Postman etc. The training is focused on testing software in real project.

Flutter Training

2025

Kathmandu Bernhardt College

I received training in Flutter development with a strong focus on integrating APIs using Strapi. During this period, I learned to build dynamic and responsive mobile applications, manage state efficiently, and connect front-end Flutter apps to back-end services through RESTful APIs provided by Strapi. This training significantly improved my ability to develop scalable, real-time features and enhanced my overall app development workflow.

SKILLS

Communication, Team building, Coding, Qa, Dart and Flutter, Mobile app design and development

LANGUAGE

Nepali, English, Hindi
